

Vantage® Self-Healing Mats

Protecting your cutting surface is the main function of a cutting mat, but there's a lot more to Dahle's Vantage® Mats. Constructed using five layers of PVC plastics, these mats provide strength, durability, and longevity for all your craft and hobby needs. The benefits are a flat, even surface to work on, and a mat that lasts a long time.

Vantage® Self-Healing Mats are designed not only for alignment and surface protection, but are also self-healing — which prolongs the life of the mat, and allows cuts to virtually disappear.

For alignment, each Vantage® mat contains inch and metric measurements on the top surface as well as 1/2" grid lines. They also include scale lines for making diagonal cuts. These markings will ensure your cuts are straight, square, and to the exact size you need. Vantage® mats are the perfect work surface for adults and children for cropping photographs, cutting, drawing, sewing, and tracing.

For versatility, Vantage® mats can be used on either side. They are found in a variety of sizes, and are available in black, blue, and the industry's only crystal clear — which is virtually transparent.

Features

- Self-healing 5 layer design allows for maximum durability
- 1/8" (3mm) Thick PVC construction protects work surface
- Preprinted 1/2" grid for easy sizing of paper
- Contains inch and metric measurements on the top surface
- Surface material protects cutting blades from becoming dull
- For versatility, Vantage® mats can be used on either side
- Includes scale lines that can be used for diagonal cuts
- Vantage® crystal clear mats are perfect for tracing
- The preferred choice for cropping photos, cutting, sewing, and crafts

Dahle's Vantage® mats are self-healing — which allows cuts to just disappear.

Vantage® mats are available in black, blue, and the industry's only crystal clear.
